Hongkono, December 7th, 1888.

Wz are glad to bear that the negotiations between the Colonial Office, the Admiralty, and the War Office on the question of the extension of the Prays in front of the Naval and Military establishments in this Colony are in course of progress. We shall be still more gratified to hear of their successful completion. The question is one of great importance to the Colony at large. At prement the Naval Kard and the Barracks interpose an impassable barrier to the continuation of one of the most frequented comenercial thoroughfares in the City of Victoria, and there is no means of relieving the .vast and uncessing stream of traffic that now flowe along the Queen's-road East. This lodge has decided to celebrate St. John's Day stream is often so great as to threaten a block, collisions between jinrickehas are not uncommon, and on festive occasions like the ally choked with the throng which surges to are prepared for the worst. the Happy Valley. The increase of industrial onterprises eastward, such as the China, Lee Yuen, and Taikoo Sugar refineries, have added the traffic, which will be further considerably augmented in a few years when Causeway Bay has been reclaimed and built upon, the centre of the Race Course converted into a Public Park, as Sir Gronge

> THE FRENCH IN TONQUIN. FROM OUR OWN CORRESPONDENT.]

HAIPHONG, 29th November. Since my last letter, I am sorry to have to record the unfortunate death of Monsieur Dofrenil Chief of the Administrative Service, and Cheva. lier of the Legion of Honour, which happened on the 26th inst. M. Dufreuil was apparently, in his densed extracts from the various monthly and usual good spirits, engaged in his office attending and Connecticut surprised all the prophets by to business on the morning of the 26th, when he giving a Repullican majority of over 6,000, with which carried him off. Although the deceased the State, Leon Abbett being elected Governor officer had only resided here for a short time, he by a small majority, but the Republicans claim imagined that such an outbreak as that of wheat from the chaff, and to afford to those whose had, by his genial manuers and genuine worth; the Senate. Minnesota gave 12,000 Republican alike, and he is sincerely regretted by a large a clean sweep in Mississippi. circle of friends. Great sympathy is felt for Madame Dufreuil and her son: the latter is also in the service. The remains of the deceased officer were interred to-day with military honours, in the presence of the whole community, who paid this last tribute of respect to one whom they had honoured when living. Momento Mori. was once Hai-duong, I find that this affair has been more serious than I at first anticipated, tai-duon; was a town of over 40,000 inhabitants and a centre of commerce in the province, but it may truly be said that it exists no longer. Between the bombardment of the French and the incendiarism of the Chinese the place has been reduced to a ruin, not a brick left standing. The Chinese merchants had to clear out, and estried nothing with them but the clothes in which they stood at the time. All their property out the cables at its own risk and peril. > A fire broke out in Garnet, Stubb & Co.'s ware house at 12.30 this afternoon. In the building nere stored 3,000 bales cotton, all of which were destroyed. The fire spread to buildings on the Joachim Farm mills, and on Indian and River streets, and were checked when they reached West Broad street and Indian street. The electric light works and Tynan's foundry are amon, the principal places burned. The rice mills, stores and other property on the north side of River street were saved. Most of the houses burned were wooden structures accepted by poor people. It is impossible at this hour to give an accurate account of the losses, but they are put down at about \$1,000,000.

THE FRENCH CHAMBERS ON THE TONQUIN QUESTION.

Paris, 30th Oct bor. In the Chamber of Deputies to-day, Granott, on the Extreme Left, interpellated the Govern ment upon its policy in Tongnin and requested an explanation of the objects sought to be obtained in the leans to conduct the expedition in that country. Granett pointed out what were apparent contradictions existing in the information furnished by the Government, and said it was contrary to official de larations that the difficulties have been raised by Chius. Granet represented the Government with con-

cealing the facts and distrusting the patriotism of the Chambers. Reverting to the Bourée treaty, he said that China had threatened resistauce and there was dauger of war. The errors of the Government, had compromised the country. The present moment, he declared, was a critical one, and France should turn her eyes towards passing the Vegges.

M. Challemel-Lacour, Foreign Minister, in reply to Granet, repudiated the idea of the Longuin expedition being an adventure. The French were, he said, encountering a more formidable opposition than was expected, but the difficulties were far from insurmountable. China had availed herself of the blockade of the coast of Annam to claim her suzersinty, and the home opposition had used it. At this point the speaker was interrupted by

Pappan, Clemenceau and Douville, who protest. ed against his remarks. Resuming, Challemel-Liacour said the Govern.

ment had no intention of advancing upon Hué until it became necessary to strike a resounding blow. The speaker justified the occupation of Hué and the forts, which had resulted in a treaty and the clearing up of the cituation. The Chamber then took recess. Upon resumption of the sitting, Challemel-La-

cour continued. He said the Government had failed in none of their engagements, nor was there any contradiction between their acts or record. No important event had occurred making necessary the early contoking of Parliament. The French were masters of three-fourths of the Red river delta and the enemy occupied but two important places, from which reinforcements would dielodge them. All the documents neceseary had been published, and those not published in the Yellow Book only showed the inconsistencies of China's policy. It was clear that China mever really sought a compromise, but simply wanted to gain time, while France had sincerely endeavoured to arrive at an agreement without accepting the humiliation of capitulation.

M. Challemel-Lacoursaid that China had never recognised the Bourés treaty and the understand. Direction of Wind..... ing between France and China that had been effected thereon. It was evident that China had sought to expel the French from Touquin. The Chinese at length decided to formulate propositions demanding the recognition of their suzerminty and the evacuation of places occupied by the French, but did not attempt to discuss the rights conferred on France by her treaties with Annam. They simply ignored those rights and declared Tonquin to be their property, and demanded that the French should retire, promising to concede to France a proposition similar to that which she now occupies in certain parts of China. France sent a roply, stating what she considered a possible basis of agreement. The Cabinet, be said still on sidered the Hourse treaty inadmissible, but the constitution of a neutral zone between Tonquin and China would oreate a situation advanta reous to France. To sum up, China demanded a reversion to the state of things which existed prior to the year 1573. France, be declared, must proceed firmly and rapidly in the work thus far advanced. The negotiations with China, he added, have been only interrupted. Let events speak for themselves. Porhaps the time will come when China will be happy to find us still ready to enter into arrangements compatible with France's interests and honour. France has never departed from firmuess and moderation. The force of circumstances has rendered her the representative of the interests of all Europe in the East. M. Challemel-Lacour concluded by

IMPERIAL QUARTO. TINGLISH AND CHINESE DICTIONARY. WITH THE PUNTLAND MANDARIN

PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Dailu Press Office, Hongkong. For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been -omnelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is Subscription for China, Japan, Straits, &c., fully illustrated and explained, forming exercises Rupees 19 per annum, in advance. vears or more, even after the management of the theatre had possed into the hands of Mr. Leater Wallack, the soil of the founder, Wallack's was the model theatre of the United States. Unfortunately, the theatre both in England and in America. One cause of the decadence of Wallack's was Wallack took no note of the strong national feeling which swent over the United States after the close of the robellion. His ideal was narrow enough to be called provincial E colonial were not a more appropriate word. He relies only on plays imported from England, changing from "Youth" to. "The Parvenu," and from "The Silver King" to "Impulse." The result of this colonial pollcy has been that Wallack's has soon fow genuine successes in the past halfdozen years. It seems that tastes differ, and the American playgour does not always say ditto to the English playgoor -indeed he often quashes the English verdict. Only occasionally is a great London success a great success in New York. For example, Central. no one of Mr. Byron's many plays liar ever had a long run in New York-not even Our Boys," although it greatly pleased both the Bostonians and the Philadelphians. COINCIDENCE OF EARTHQUAKES. At a time when the recurrence of very destructive earthquikes in different parts of the globe is attracting attention, it is worth

noting that an earthquake which occurred at Irkutsk, in Siberia, on the night of one day, at 11h. 20m., was followed by one which was felt all over northern Moravia about 3.30 p.m. next day. The difference in latitude between the two localities is about 2 deg.; in longitude about 87deg. Thus, allowing for the equation of time, the Moravian earthquake came about 22 hours after that at Irkutsk. There appear to be certain centres of earthquake convulsions, such as the Greek Archipelago, Southern Spain and Portugal, and the Italian Peninsula, Whenever shocks are felt in Europe one or other of these centres is involved. It can scarcely be said that any theory has yet suggested a reasonable explanation of the mode in which they are THEE PROPERTIES Situated in Amoy, connected.
